SCHOOL CIRCULAR

Environment Protection Activities – A Step towards Responsible Education

Dear Parents and Students,

Warm greetings!

At our school, we believe that loving nature and caring for our fellow human beings lie at the heart of true education. Without a deep connection to nature and a sense of responsibility toward the world around us, learning remains incomplete. In keeping with this belief, we are happy to announce that Environmental Education will now be an active part of our school curriculum.

We encourage every child to take up one activity at home (outside of study time) to reduce screen time and deepen their connection with nature. Here are a few suggested activities:

- ☐ If you have space near your home, try vegetable cultivation or gardening.
- ☐ Spend time in the kitchen learning cooking or helping out.
- ☐ Take care of small pets or animals around you.
- ☐ Plant a tree, care for it, and maintain a simple record of its growth.

Important Notice:

Students have to update their chosen activity and it's growth every month to their class teacher.

The class teacher will maintain a record and award grades in the teacher's book.

Best Students who cultivate vegetables will be eligible for the "Little Farmer Award" to be presented on Farmers' Day.

With warm regards,

Joseph O'SJ

Principal
